

The following guide highlights the planning of your kitchen that should be both functional and attractive, the follow are very important:

1. Dimensions of the room, **Width x Length**, as well as **ceiling height**, also indicate any half-wall, or closets that may make contact with our cabinet run. **Please use grid on next page for these dimensions as well as the following.**
2. Indicate all breaks, (include its width, and note what it is: a window, door, or pass-through), measuring a distance from their closest corner; don't forget to add 3" on each side for moldings, if the opening has molding around it. **Remember, show measurements from corners.**
3. Indicate permanent appliances (including their widths, this is very important, for example: refrigerators, can be 30" 33" or 36"), your range as well (a standard range is generally 30" wide), also include any vents, etc,.
4. Indicate, sinks, and additional plumbing, such as waterlines, dishwashers (include their width, standard dishwashers are 24")
5. Please indicate any islands, or breakfast bars/ peninsula's
6. Please indicate the length of the cabinet run from the corner, to the end of the run, also indicate any countertop over hang that you desire, such as a stool area on a center island, *please do not exceed 12" overhang.*
7. Please indicate if the space between the top of your cabinet and the ceiling is open or enclosed (how much room there is between), if open indicate if you would like crown molding or a plate rail.

Please answer the following questions or indicate what is needed:

Do you want crown molding, plate rail, or leave the space open? _____

Do you want a Toe kick, or some type of base molding to cover openings, between cabinets and flooring? _____

What type of countertop are you using, granite, Formica, or solid surface? _____

What type of backsplash (part of counter, or tile)? _____

Will you be installing a microwave or a hood vent? _____

Do you want 30", 36", or 42" height of wall cabinets? _____

Do you need a dishwasher panel, refrigerator panel, island, or breakfast bar back panel? _____

Do you want a Lazy Susan in the corner, or a Blind Base (less expensive option) _____

Do you need a quote for installation? _____
